2 QUALIFICATION INFORMATION

PROJECT PROPOSAL

Building Name

Project Location GPS:

Sector: (Gov, Education Commercial etc)

Size of Building

Number of Floors

Age of Building

Type and Construction

SITE ISSUES

Solar Heat Gain Ave External Temperature

Thermal comfort problems °C

Glare issues reported Target Internal Temperature

Limited natural daylight °C

Visual security required

Physical window security required (8mm) /

FUNDING

Payback requirements

External funding required

Strength of Covenant (government, corporate)

3 PRE-SURVEY INFORMATION

NOTE: only proceed to Section 3 after Sections 1 & 2 are qualified

Building Information

Total floor area	<input type="text"/>
Total number of floors	<input type="text"/>
Site operational - Hours/Day	<input type="text"/>
Days/Week	<input type="text"/>

Air conditioning information

Air conditioning Type	<input type="text"/>
AC Rating SEER or COP rating	<input type="text"/>

Electricity Costs

Electricity Cost (p/kWh)	<input type="text"/>
Standing Charge £	<input type="text"/>
Annual electrical bill kWh	<input type="text"/>

Gas Costs

Gas Cost (p/kWh)	<input type="text"/>
Standing Charge £	<input type="text"/>
Annual gas bill kWh	<input type="text"/>

Energy Performance

Type of lighting controls installed	<input type="text"/>
-------------------------------------	----------------------

	Yes	No	Other
Localised user control of light controls	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
Localised user control of air conditioning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
Window blinds installed and user operated	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
Estimate of window blinds associated costs			Maintenance <input type="text"/> £'s
			Cleaning <input type="text"/> £'s

Energy Requirements

Reduced cooling and effect on heating costs	<input type="checkbox"/>
Optimise use of available natural light	<input type="checkbox"/>
Minimised use of artificial lighting energy	<input type="checkbox"/>
Effective use of existing lighting controls	<input type="checkbox"/>
